## PROFESSIONAL SUMMARY

Software Developer/Engineer Lead with over 4 years accustomed to heading up successful development teams through agile direction and careful delegation. Willing to direct large-scale teams or work hands-on to complete extremely difficult projects. Brings both cutting-edge programming expertise and exceptional interpersonal skills to leadership roles.

## WORK HISTORY

**Boulos Engineering.** Lagos, Nigeria  
*Software Developer | 08/2021 - Current*

- Revised, modularized and updated old code bases to modern development standards, reducing operating costs and improving functionality.
- Developed software for both desktop and mobile operating systems.
- Collaborated on stages of systems development lifecycle from requirement gathering to production releases.
- Collaborated with project managers to select ambitious, but realistic coding milestones on pre-release software project development.
- Gathered and defined customer requirements to develop clear specifications for project plans.
- Introduced agile methodologies and development best practices to division to enhance product development.
- Designed and maintained streamlined, reusable and reliable code for use within distributed cloud environments.
- Participated in cross-functional projects while working in lean development environments.
- Planned and developed interfaces that simplified overall management and offered ease of use.
- Coordinated with project management staff on database development timelines and project scope.

**Tectaninet Computers.** Lagos, Nigeria  
*Software Engineer | 01/2017 - 07/2021*

- Worked with software development and testing team members to design and develop robust solutions to meet client requirements for functionality, scalability and performance.
- Installed and configured software applications and tested solutions for functionality.
- Reviewed project specifications and designed technology solutions

## SKILLS

- Continuous Integration Systems
- Software Testing and Validation
- Organization and Time Management
- Software Components and Libraries
- RDMS Development and SQL
- JS Frameworks: React, Node
- HTML
- Laravel
- API Design and Development
- Object-Oriented Programming (OOP)
- Programming Languages: Java, Python (Using Django Framework)
- JavaScript Expertise
- CSS

## EDUCATION

**Ajayi Crowther University**  
Oyo State  
11/2019

Bachelor of Science: Computer Science

**The Federal Polytechnic**  
Ado-Ekiti, Ekiti State  
11/2012

Higher National Diploma:  
Computer Science

that met or exceeded performance expectations.

- Coordinated with other engineers to evaluate and improve software and hardware interfaces.
- Gathered and defined customer requirements to develop clear specifications for project plans.
- Orchestrated efficient large-scale software deployments.
- Collaborated with clients to define solution requirements, accounting for applicable development variables.
- Consulted regularly with internal customers on application development project status, new project proposals and software-related technical issues.

## ***PROJECTS***

- Wabloan App (Currently on Playstore)
- Wabloan Management Software (<https://wabloan.com/admin/login/backend>)
- Breeze Company Loan App (Privately hosted)
- GDS Software modules (Privately hosted - Currently used by Boulos Engineering)
- AAUA Ibadan Campus School Website (<https://aauibadancampus.com>)
- Matley Investment App (Privately hosted)
