Very Good

## Work History

2017-01 - Current

### Software Developer

*Boulos Engineering , Lagos, Lagos*

- Revised, modularized and updated old code bases to modern development standards, reducing operating costs and improving functionality
- Collaborated with project managers to select ambitious, but realistic coding

milestones on pre-release software project development

- Coordinated with project management staff on database development timelines and project scope
- Trained and managed team of developers and discussed issues in order to provide resolution and apply best practices
- Documented technical workflows and knowledge in private wiki for education of newly hired employees
- Led version control efforts for organization, employing GitHub and other public and open source repositories
- Gathered and defined customer requirements to develop clear specifications for project plans
- Developed software for both desktop and mobile operating systems

**2017-01 - 2019-11**

## **Software Engineer**

*Tectaninet Computers, Lagos, Lagos*

- Orchestrated efficient large-scale software deployments
- Worked with customers for needs analysis, proposal development and vendor costs to produce competitive estimates
- Worked with software development and testing team members to design and develop robust solutions to meet client requirements for functionality, scalability and performance

## **Education**

---

**2017-04 - 2019-11**

### **Bachelor of Science: Computer Science**

*Ajayi Crowder University, OYO - Oyo*

**2010-04 - 2012-11**

### **High School Diploma**

*The Federal Polytechnic, Ado Ekiti - Ado Ekiti, Ekiti State*

## **Solving Problems**

---

I take my time to understand the problem which gives me an insight of what is required to give the problem a solution.

I also seek the right tool/language to use which is best to handle the solution.

I as well research on better practices and approach to solving the problem

## **Project**
